REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Surry :

I herewith submit my second report as Superintendent of Schools.

ORGANIZATION AND ENROLLMENT

No changes were made in the teaching positions this year. The advantage of retaining qualified teachers has been apparent.

Standard achievement tests in all the fundamental subjects were given to the pupils in grades five to eight inclusive. Standard graduation tests were administered to the eighth grade pupils previous to graduation. The results of the tests were tabulated for purposes of comparison and indicated that the pupils generally were doing satisfactory work for their grades.

The testing program this year is principally diagnostic in nature. The purpose is to diagnose difficulties and weaknesses which may occur in the fundamentals. The results are to be used as a guide to instruction and as a basis for remedial work. In each school a program for remedial work will be developed in accordance with the needs of the pupils as indicated by the results of the tests. Attention will be given to individual as well as to group needs.

Both teachers attended the sessions at the State Teachers' Convention and at the Institute for Rural Teachers held at Sullivan. General letters containing specific suggestions in class and school management have been issued. A professional library of fifty-eight volumes is being circulated from the superintendent's office. The library consists of books dealing with class management and teaching problems.

The interest of the Grange in furnishing candy and oranges for the children at Christmas, is appreciated.

HEALTH

Report of School Nurse:

The routine inspection of each pupil's scalp, throat, skin, posture and general hygiene began with the opening of the school year. The general appearance of the children does not indicate suffering for lack of food. There are always a few who need special diet.

We urge the children who do not go home at noon to bring milk with their luncheon so that their diet will not lack this special food.

Plans are being made for a school dental clinic and we hope every child needing work done will take advantage of this opportunity.

Report of annual examination and follow up work: Examinations conducted September 1935 and January 1936.

MARGARET E. HARRIS.

BUILDINGS AND EQUIPMENT

The school buildings are both in good condition. The repairs necessary to maintain the buildings in good condition have been made.

The following special repairs were made:

In the village school the class room ceiling was whitened, the plaster in the hallway was repaired and the walls and ceilings were painted. The chimney at the village school was cleaned.

Three primary chairs were purchased for the North End school with money raised at a school play.

Lillian Lewis

The increase of thirteen pupils in the total registration is significant. There has been a decided increase in the number of cases of tardiness. It is a responsibility of the school to impress pupils with the importance of forming habits of promptness. I solicit the cooperation of parents in our efforts to improve the record this year.

I wish to express appreciation for the cooperation received from members of the School Board, parents, teachers and pupils.

Respectfully submitted,

CHARLES D. DALZELL,

Superintendent of Schools.
